

"Joel is fast on his feet, has admirable associative thinking, and is great at tackling messy challenges."

Victor Alexiev, Citi Ventures APAC

"Joel is open-minded, knowledgeable and candid. His tools are useful for solving problems."

Steven Tan, Ministry of Defence

"Joel's session was thorough and well-organised. Although the session was held online, it was facilitated seamlessly with breakout discussions and team activities."

Muhammad Iqbal Alias, Singapore Airlines

HELPING COMPANIES RESPOND TO DISRUPTION THROUGH INNOVATION

Lim-Loges & Masters

We live in a fast-moving world where disruption has become a way of life. At Lim-Loges & Masters we understand the impact of this ongoing disruption on businesses across Asia and help our clients adopt innovative solutions to successfully navigate disruption and emerge stronger, dramatically impact productivity and affect long-term profitability.

OUR APPROACH

Our forward-thinking, innovative approach enables organisations to remain at the forefront of change. We recognise that disruption can come from anywhere – geographical, political, technological, digital, medical and emotional, for example - and give organisations the tools they need to always be prepared.

At Lim-Loges & Masters, we help our clients identify and prepare for any type of disruption through innovation. We give them the confidence to mitigate, manage and find the opportunities created by the disruption process before, during or after it has happened.

The key to surviving (and thriving) is knowing that disruptions will happen and how to use innovation to respond to them.

ABOUT JOEL NG

Inventor, Master Trainer and published author of the critically acclaimed 'Innovation within GRASP™ - the Ultimate Cheatbook in Innovative Solutioning'. Joel has over 20 years' experience in applied design thinking and innovation. Contact Lim-Loges & Masters via email: IreneTan@LimLogesMasters.com to discuss your Disruption Management needs.

INNOVATION FOR SUCCESS

Innovation is crucial. Leaders must ensure their organisation has a sustainable competitive edge. A lack of innovation to establish a future-ready company and propel the business forward will dramatically impact productivity and affect long-term profitability.

At Lim-Loges & Masters

- ◇ We empower leaders and individuals to create and embed an environment of innovation to solve any problem and ensure their organisation is future-ready.
- ◇ We combine design thinking, behavioural insights, and lean processing principles to create a holistic and innovative problem-solving toolkit.
- ◇ We strive to help drive impactful change and pivot your organisational transformation.
